ITALY

21 students

3–5 years old

SWEDEN

19 students

4 years old

Learning together across borders through observation.

How we stay connected

Languages used

English between project partners

Swedish, Icelandic and Italian in class (mother tongues)

Duration

Approximately 4 months
Mid-November to mid-March

Ways of communication

TwinSpace • WhatsApp • Email

A four-month collaborative journey

Mid-November → Mid-March

Final products

Woven patterns

Each school creates its own weather-inspired weaving.

Shared final video

Songs and a range of activities linked to the project.

“Bring the Outside In”

Temporary exhibitions shared online by each class.

Children’s work becomes a shared record of the weather around them.

How the project works

01 **Observe**

Each day, children check the weather outside.

02 **Weave**

They add one row to the weaving frame using the agreed temperature-colour scale.

03 **Sing & share**

Teachers record “Itsy Bitsy Spider” in all languages and show the videos to the children.

04 **Bring nature inside**

Classes create temporary “Bring the Outside In” exhibitions and project-related pictures.

05 **Connect**

All participants share progress with the children.

The temperature-colour scale

Dark blue	Freezing	**< −10°C**
Light blue	Cold	**−6°C to −10°C**
White	Chilly	**−5°C to −1°C**
Yellow	Mild	**0°C to 5°C**
Orange	Warm	**6°C to 10°C**
Red	Very warm	**11°C to 15°C**
Wine red	Hot	**> 16°C**

Curricula Goals

Children in Italy, Iceland and Sweden observe local weather and turn their findings into a colorful woven carpet.

SCIENCE & STEM

Observe weather and notice natural cycles.

ARTS & CRAFT

Weave a small weather carpet using wool.

EARLY MATHEMATICS

Sort colours, compare temperatures and map data.

MOTOR SKILLS

Practise dexterity, coordination and concentration.

MUSIC & LANGUAGES

Sing “Itsy Bitsy Spider” in each language.

GLOBAL CITIZENSHIP

Discover similarities and differences across Europe.

A shared project connecting nature, creativity and cultural understanding.
